

Associated Electric Cooperative uses a mix of resources

... to supply reliable, affordable, responsible electricity

Generation to serve member load

Associated Electric Cooperative is part of a three-tiered system united by the common purpose of serving electric cooperative members with reliable, affordable and responsible electricity. Associated is owned by six generation and transmission cooperatives (G&Ts) that formed it in 1961 to provide them a wholesale power supply.

These six G&Ts are owned by 51 distribution cooperatives in Missouri, southeast Iowa and northeast Oklahoma.

The 51 local electric cooperatives serve more than 935,000 meters, representing about two million member-consumers.

Coal
2,353 MW

Natural gas
2,795 MW

Wind generation*
1,240 MW

Hydroelectric
478 MW

*Associated sells and does not retain or retire all of the environmental attributes of energy generated by 1,240 megawatts of contracted wind facilities. This brings in revenue that helps keep members' electricity affordable.
